Charles would like the generic edit to be: "Jesus confronted political and religious authority. He was arrested and executed."

This would work because students would still understand that the Romans were not acting alone and religious leaders were involved. At the same time, it cannot be read as "Jewish leaders." (Also, the term "Jewish leaders" is a bit of anachronism because the Judaism we know today was really created after the Roman destroyed the Temple in Jerusalem in 70 AD.)

Tom
